

PE-HD

Impact resistant tube at a cost-effective price for more demanding use. Very good chemical resistance.

This more rigid polyethylene tube also has a good pressure resistance.

PE-HD
For more
demanding use

- Material:** PE-HD high-density polyethylene
- Hardness:** 65 Shore D ISO 868
- Structure:** Single-layer tube
- Installation temperature:** -30 °C ... +50 °C
- Tolerances:** According to DIN 74324
- Colours:** Colours by request
- Chemical resistance:** Good chemical resistance against gases and liquids
- Manufactured sizes:** Outer diameter 4,0 mm ... 22 mm

Technical information

mm	+/-	mm	+/-	bar	20°C	bar	30°C	bar	40°C	bar	50°C	bar	60°C	mm	g/m
6	0,1	4	0,2	31	27	-	20	17	24						9,9

The safety factor for working pressure is 3.
